

PRESCRIBED FIRE FORUMS & FIELD TOUR

Join us to explore the role prescribed fire, a carefully planned and executed practice, plays in maintaining the health, vitality, and biodiversity of our Hoosier oak-hickory and grassland ecosystems.

Come with questions and engage with experts who will share their knowledge, experiences, and passion for this long-standing stewardship practice.

Whether you're a forest landowner, conservationist, or nature enthusiast, these events offer an opportunity to explore the intricate nature of prescribed fire as a stewardship practice.

EVENT HIGHLIGHTS

Dinner and Social (April 11 & 18)

Join us for dinner and a casual social event (evening events only)

Engaging Presentations & Open Forum

Hear from experts and ask questions about the use of prescribed fire to steward Indiana's ecosystems

Field Tour (April 13)

See the results of a recent prescribed fire and chat with experts
