Virtual Tree Planting Workshop

FOR WINDBREAKS, WILDLIFE & FOREST PLANTATIONS

Thursday, Feb. 12, 2026 | 1:00–3:00 PM, Eastern

FREE Virtual Workshop Via Zoom

Don't miss this opportunity to attend a virtual tree planting workshop! The workshop will cover subjects such as ordering trees, planting trees, spacing, which species to use, soil types, weed control, and other related subjects.

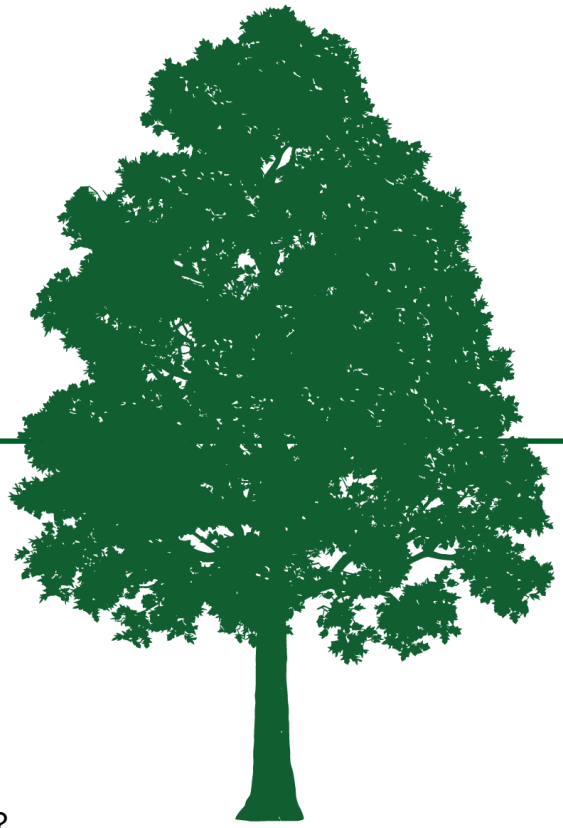
Proper planting and good plantation maintenance practices will determine the success or failure of your newly planted seedlings. Many people have planted trees for windbreaks, reforestation, or wildlife habitat and have had disappointing results. Others have planted seedlings without losing a single one. During this workshop you will learn many useful ways to be successful with the seedlings you plant this year.

All participants will receive a digital packet of information containing the latest tree planting information and forest industry bulletins.

Email questions about the tree planting workshop to jaspernursery@dnr.IN.gov or call Jasper-Pulaski Tree Nursery at 219-843-4827.

This workshop is FREE, but registration is required.

To register:
Email jaspernursery@dnr.IN.gov your name, number of attendees and your email address. Before the workshop, all registered attendees will be emailed log-in information. Registration deadline is **Friday, Feb. 6**.



TOP 10 REASONS TO ATTEND A WORKSHOP:

1. How do I prepare for tree planting?
2. What kind of trees do I order?
3. How many trees do I order?
4. Where do I plant?
5. When do I plant?
6. How do I plant?
7. What about fertilizer?
8. What about weed control?
9. What about insect problems?
10. What steps are needed after planting?

Sponsored by the Purdue University Cooperative Extension Service, Purdue Department of Forestry and Natural Resources, and the Arrow Head Country Resource Conservation & Development (RC&D) Area Forestry Committee.
